roved For Release 2000/08/27 : CIA-RDP75-00662R000100070010-6

8 October 1946

Mr. John L. Nagle Deputy Commissioner for Real Estate Management Public Buildings Administration 6302 Federal Works Agency Building Mashington, D. C.

Dear Mr. Nagle:

Cenfirming our telephone conversation several days ago, I wish to advise that the Central Intelligence Group has completed tentative arrangements with the War and Navy Departments for the transfer of the Washington Decument Center to this agency.

The Washington Decument Center is eccupying space on the 4th, 5th, and 5th Floors of the Stewart Building, 6th and D Streets, W.W., Washington, D. C. In view of this transfer, which will not be effective until I December 1946, it is requested that space records of the Public Buildings Administration indicate that the space is to be transferred to this agency. I realize that you are anxious to ebtain the space in this building for other purposes, and at this time it is impossible for the Central Intelligence Group to furnish the required space. However, should the space needed become available, arrangements may be made at that time to move this activity to another lecation.

Thanking you for your cooperation in this matter, I remain

Very truly yours,
